

Cable gland -- Double hole

Specifications

Part No. :202-1003

Color: Black

Material:Made of ABS plastic

Waterproof: IP68

Weight:80g

Cable diameter:Holds cables with a diameter of 4-12mm tightly

Install method: high viscosity and heat-resistant glue

Characteristic

Wide range of applications: The solar panel angle bracket can be used with any size of aluminum frame solar panel, providing safe fixing performance.

Strong compatibility: Compatible with 20W to 200W panels.

Safe and reliable: It has high strength and high frequency insulation performance against UV rays, is not affected by cold, heat and humidity, is easy to install and has a long service life, ensuring safety and reliability.

Installation location: Flat roof, yacht, etc. The ABS bracket supports the solar panel at the optimal height above the surface to allow ventilation from below, ensuring that the solar panel works as efficiently as possible.
