

SKANBATT L125 Deep Cycle Battery 6V 240Ah

Model: **DCB-GC2-125**

Product Overview

Heavy duty deep cycle battery designed for applications requiring extended operating time. The battery provides stable power output and reliable cyclic performance in electric machines and vehicles.

Key Features

- High capacity deep cycle design
- Long runtime for electric work vehicles
- Robust industrial battery construction
- Well suited for golf carts and cleaning machines
- Reliable performance under repeated cycling

Technical Specifications

Voltage	6V
Capacity (C20)	240Ah
Battery Type	Flooded deep cycle lead-acid
Battery Format	GC2
Dimensions (L x W x H)	264 x 181 x 276 mm
Typical Systems	12V, 24V, 36V and 48V battery banks

Typical Applications

Golf carts, electric utility vehicles, aerial lifts, floor scrubbers, sweepers, and other deep cycle battery applications where reliable cyclic performance is required.

Charging recommendation: Use a charger with a correct charging profile for flooded lead-acid batteries. Temperature compensation is recommended for optimal charging.
