

SKANBATT L105 Deep Cycle Battery 6V 225Ah

Model: **DCB-GC2-105**

Product Overview

High performance deep cycle battery developed for demanding cyclic applications. The GC2 format is widely used in golf carts and industrial machines where reliable power delivery and long runtime are essential.

Key Features

- Designed for repeated deep charge and discharge cycles
- High capacity for extended runtime in electric vehicles and machines
- Robust flooded lead-acid construction
- Proven technology widely used in golf carts and industrial equipment
- Suitable for series and parallel battery bank configurations

Technical Specifications

Voltage	6V
Capacity (C20)	225Ah
Battery Type	Flooded deep cycle lead-acid
Battery Format	GC2
Dimensions (L x W x H)	264 x 181 x 276 mm
Typical Systems	12V, 24V, 36V and 48V battery banks

Typical Applications

Golf carts, electric utility vehicles, aerial lifts, floor scrubbers, sweepers, and other deep cycle battery applications where reliable cyclic performance is required.

Charging recommendation: Use a charger with a correct charging profile for flooded lead-acid batteries. Temperature compensation is recommended for optimal charging.
